

# DACA UPHELD BY SUPREME COURT

On June 18, 2020, the Supreme Court upheld the DACA program.

The Court found that the current administration did not follow proper legal procedure for ending DACA. As a result of this decision, the 2012 DACA mandate is back in effect.

**This means that both initial DACA applications (for those who never had DACA before) and DACA renewal applications will be permitted. The administration has 30 days before they must begin abiding by this updated policy.\***

The North Suburban Legal Aid Clinic urges those eligible to file DACA renewal applications to submit a renewal application as soon as possible. Those who think they may be eligible to receive DACA status for the first time should to contact the Clinic immediately. We are available to consult about DACA renewal and initial applications at 847.737.4042. Please visit our website ([www.nslegalaid.org](http://www.nslegalaid.org)) for updates on DACA policies.

\*There may be a delay in the implementation of this update, however we urge clients to be ready to file their applications ASAP
